

FLEMING COUNTY MOURNS LOSS OF DEDICATED SUPERVISOR

Submitted by Pam Williams

Mr. Bill Grannis, 89 passed away on Sunday Jan. 4, 2015. He was born Aug. 17, 1925, a lifelong resident of Fleming County. He will be greatly missed among residents of Fleming County as he was a highly respected man for his dedication to family, faith, and farming.

Mr. Grannis made his living from the farm. While earning that living from the ground he also knew and promoted the importance of protecting the environment daily. Although he held numerous seats and was affiliated with many farm and farming related organizations on the local, state and corporate levels, Mr. Grannis was very proud to be a member of the Fleming County Conservation District, a position he held for more than 40 years. He promoted conservation and stewardship to the young, the old, farmers, homeowners and organizations throughout Fleming County. The Fleming County Conservation District board respected Mr. Grannis's dedication to conservation and will sadly miss his presence as they continue to promote conservation and stewardship in Fleming County.
